AUR3122X Certificate III in Mobile Plant Technology – Forklift and EWP elective units

Proposed new list of elective units available to the Forklift and Elevating Work Platform specialisations only:

AUR3122X proposed Forklift and EWP elective units	Note
AURATA002 Read, interpret and apply engineering drawings	Moved from general elective units – no change to unit
AURETR011 Install basic ancillary electrical systems and components	Moved from general elective units – no change to unit
AURETR121 Diagnose, repair and replace heavy vehicle electronic management, monitoring and tracking systems	Moved from general elective units – no change to unit
AURETR123 Diagnose and repair spark ignition engine management systems	Moved from general elective units – no change to unit
AURETR131 Diagnose and repair ignition systems	Moved from general elective units – no change to unit
AURLTE001 Remove and install light vehicle engine assemblies	Moved from general elective units – no change to unit
AURTTA009 Carry out mechanical pre-repair operations	Moved from general elective units – no change to unit
AURTTA011 Install hydraulic systems to specified applications	Moved from general elective units – no change to unit
AURTTA017 Carry out vehicle safety inspections	Moved from general elective units – no change to unit
AURTTB015 Assemble and fit braking system components	Moved from general elective units – no change to unit
AURTTW001 Carry out soft soldering techniques	Moved from general elective units – no change to unit
AURTTX103 Inspect and service automatic transmissions	Moved from general elective units – no change to unit
AURVTW103 Carry out advanced gas metal arc welding on vehicle body sections	Moved from general elective units – no change to unit
AURVTW209 Carry out basic gas metal arc welding	Moved from EWP specialist elective units and general elective units – AURVTW209 supersedes and is equivalent to AURVTW109

The Forklift and EWP elective units list contains 14 units.
