

Consultation Strategy – Review and update emergency response qualifications

This document describes the stakeholder consultation that AUSMASA will undertake during the review and update of the RII emergency response qualifications.

Project Overview

This project will consult with stakeholders to review and revise the Emergency Response qualifications; skill sets and units of competency in the RII Resources and Infrastructure Industry Training Package.

AUSMASA will collaborate with BuildSkills Australia on this project, as some of the training products have implications for stakeholders in the mining sector and civil construction.

The Emergency Response training products within the RII Resources and Infrastructure Industry Training Package (RII Training Package), are comprised of:

Qualifications

- [RII30719 Certificate III in Emergency Response and Rescue](#)
- [RII41319 Certificate IV in Emergency Response Coordination](#)

Skill Sets

- [RIISS00033 Underground Coal Mine Safety Skill Set](#)
- [RIISS00034 Surface Coal Mine Safety Skill Set](#)

Unit of Competency

- 32 identified Units of Competency. Visit the [project page](#) for full details.

Of the 32 Units of Competency, there are 6 that are of interest to the stakeholders of BuildSkills Australia as well as AUSMASA:

[RIIRIS201E Conduct local risk control](#)

[RIIRIS202E Respond to site-based spills](#)

[RIIRIS301E Apply risk management processes](#)

[RIIRIS401E Apply site risk management system](#)

[RIIRIS402E Carry out the risk management process](#)

[RIIRIS403E Manage and coordinate spill response](#)

In total 2 qualifications, 2 skill sets and 32 units of competency will be reviewed in this project.

Activity Timeline

This project will begin in February 2025 and is scheduled to be completed in August 2026.

Activity	Timeframe
Commencement	February 2025
Establish a Technical Advisory Group (TAG) including representatives from BuildSkills Australia Stakeholder consultation to inform the development of draft training products.	February - May 2025
Draft 1 Training Products for public and government consultation	July 2025
Feedback from Draft 1 public and government consultation reviewed and incorporated by TAG	August 2025
Draft 2 Training Products for public and government consultation	October 2025
Feedback from Draft 2 public and government consultation reviewed and incorporated by TAG	November 2025
Targeted stakeholder consultation	December 2025 – January 2026
Feedback from targeted consultation reviewed and incorporated by TAG	January 2026
TAG review final draft training products	January 2026
Senior Officials Check	February 2025
Submission to the Assurance Body	May 2026
Upload the endorsed training products to the National Training Register following endorsement of the training products by Skills Ministers	Following endorsement of the training products by Skills Ministers
Promotion, implementation and monitoring of the endorsed training products	Following upload of the endorsed training products to the National Training Register

Stakeholder Consultation

Key stakeholder groups have been identified for this project, and we will ensure each is contacted to seek their participation and gather feedback on the draft training products. Through broad public consultation, interested parties can contribute their insights, the results of which will inform further targeted consultations and guide the development of the training products.

Interested stakeholders can visit the AUSMASA website project page as the primary source of information regarding the project status and activities. Stakeholders can subscribe for updates to the

project and view the draft training products when available for consultation. Feedback is welcome at any time and encouraged via the project page links.

AUSMASA will collaborate with BuildSkills Australia to ensure that their stakeholders are invited to participate in the consultation process for the 6 Units of Competency of mutual interest. BuildSkills Australia will nominate 6 representatives to join the TAG to represent their stakeholders' views. Consultation opportunities will be published on both the AUSMASA and BuildSkills Australia websites.

To keep up to date with project developments and be notified of consultation opportunities stakeholders are encouraged to:

- Visit the website [project page](#)
- Subscribe to [project updates](#)
- [Subscribe](#) to The Journey newsletter
- [Follow](#) AUSMASA on LinkedIn

Key stakeholder groups - AUSMASA

A wide range of stakeholders will inform the project. Consultation is not limited to the organisations listed below and all interested stakeholders are encouraged to engage in the consultation of this project when the draft training products are available for feedback.

Industry stakeholders – Mining SWAP members

Consultation mechanisms / approaches

The consultation approaches have been designed to be accessible for all stakeholders, providing a variety of ways to interact with and provide input into the development stages.

Consultation type: Technical Advisory Group (TAG)

- Set up on commencement of the project with tripartite representation including:
 - SMEs undertaking emergency response activities on industry sites
 - RTOs
 - regulatory body or state training authority representatives
 - union representation

The TAG will:

- meet via monthly meetings throughout the project to provide technical input and advice.
- Be governed by a Terms of Reference
- review public and government feedback received and provide advice on required revisions to training products.
- ensure all feedback documented in the project Consultation Log has been considered and a response formed and documented.

Consultation type: Public Consultation

- Minimum 4 weeks as per the TPPDEPP
- Draft training products will be available via the AUSMASA website for stakeholders to review and provide feedback
- Feedback is encouraged by all those with relevant expertise and knowledge from all sectors.
- Feedback will be gathered and documented in the consultation log.

Consultation type: Workplace Functional Analyses (WFAs)

- The project will conduct 3 WFAs across 2 states and territories to identify the work undertaken by responders to emergency situations on mine sites.

Consultation type: Interviews with targeted stakeholder groups

- To inform the consultation strategy and validate technical writing of the training products.
- 1:1 interviews with Subject Matter Experts (SMEs) either online or face to face as identified in initial consultations
