RIISS000X7 Flowing Aquifer Systems Skill Set

DRAFT

Release: 1

RIISS000X7 Flowing Aquifer Systems Skill Set

Modification History

Release	Comments
1	This skill set was first released in RII Resources and Infrastructure Industry Training Package Release 13.0.

Description

This skill set addresses the skills and knowledge required for waterwell drillers conducting drilling operations in flowing aquifer systems.

It aligns with Class 3 licensing requirements for operations in flowing aquifer systems.

Licensing/Regulatory Information

Licensing, legislative, regulatory and certification requirements that apply to this skill set can vary between states, territories, and industry sectors. Relevant information must be sourced prior to application of the skill set.

Pathways Information

The units provide credit towards the RII4092X Certificate IV in Drilling Operations or equivalent, and towards other qualifications that allow for selection of these units.

Entry Requirements

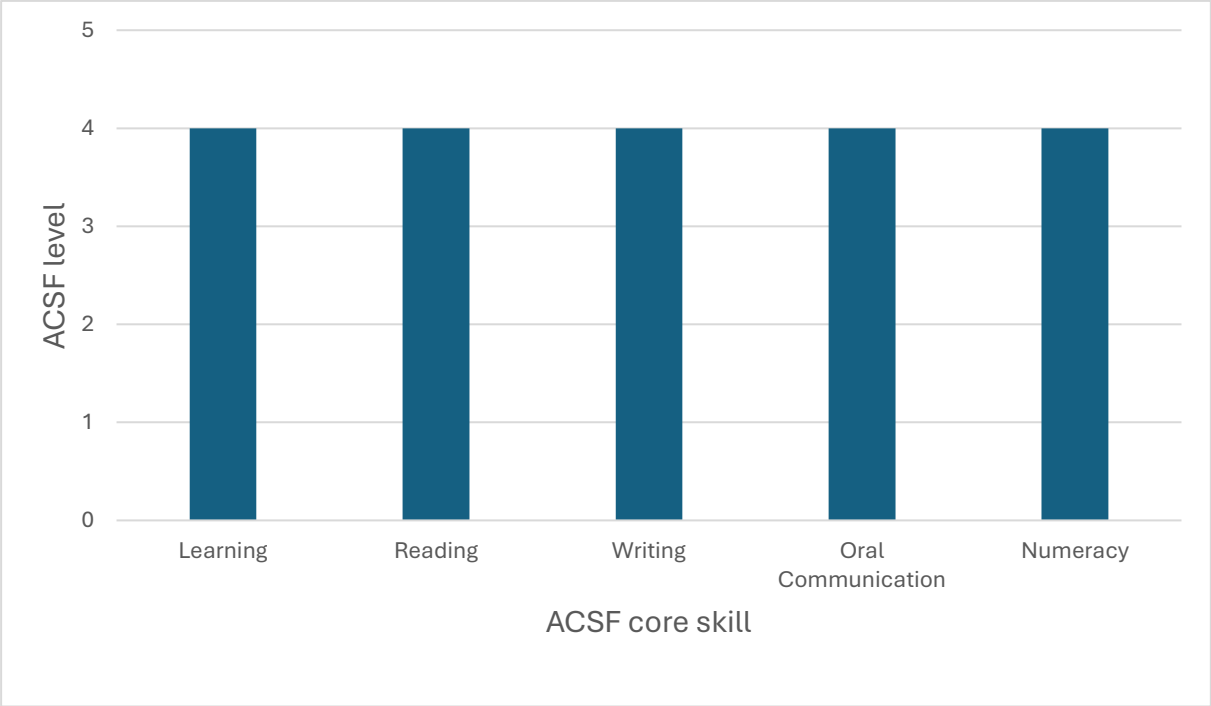

This skill set is limited to those who have completed RIISS000X6 Multiple Non-Flowing Aquifer Systems Skill Set

Foundation Skills Outcomes

The foundation skills outcomes in this skill set are outlined below.

DRAFT

© Commonwealth of Australia, 2026 Mining and Automotive Skills Alliance

Skill Set Requirements

Code	Title
RIINHB411E	Construct artesian (flowing) aquifer bores
RIINHB412D	Construct geothermal wells

Pre-requisite Requirements

There are no pre-requisites associated with units packaged in this skill set.

Skill Set Mapping Information

Previous Code and Title	Equivalence	Comments
	Newly created	This skill set has been created to address a requirement by industry.
