RIISS00131 Mine Surveying Skill Set

RIISS00131 Mine Surveying Skill Set

Modification History

Release	Comments
1	This skill set was first released in RII Resources and Infrastructure Industry Training Package Release 12.0.

Description

This skill set addresses the skills and knowledge to work in surveying operations for a range of purposes in a mining context.

This skill set is for individuals who work in a mine surveying context, and who work across a broad range of functions and may be responsible for team outcomes.

Licensing/Regulatory Information

Licensing, legislative, regulatory and certification requirements that apply to this skill set can vary between states, territories, and industry sectors. Relevant information must be sourced prior to application of the skill set.

Pathways Information

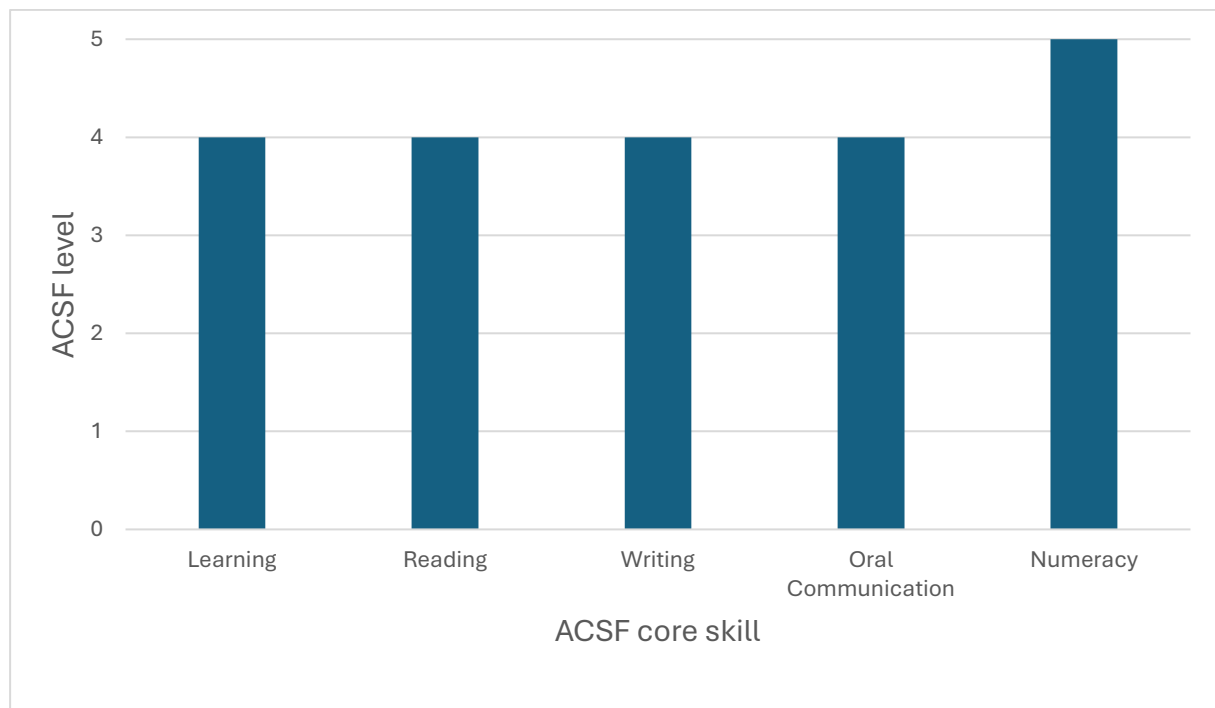

The units provide credit towards a RII40426 Certificate IV in Underground Coal Operations qualification and other qualifications that allow for selection of these units.

Entry Requirements

There are no entry requirements for this skill set.

Foundation Skills Outcomes

The foundation skills outcomes in this skill set are outlined below.

Completion of this skill set supports the development of digital literacy skills to use workplace digital and spatial-data systems to gather, process, store and analyse survey data and maintain data integrity.
