AURSS00075 Vehicle Refrigerant Recovery Skill Set

AURSS00075 Vehicle Refrigerant Recovery Skill Set

Modification History

Release	Comments
1	This skill set was first released in AUR Automotive Retail, Service and Repair Training Package Release 10.0.

Description

This skill set addresses the skills and knowledge required to recover vehicle air conditioner refrigerants into designated recovery cylinders for disposal in accordance with safety and environmental procedures.

It is intended for individuals working as vehicle dismantlers, automotive parts recycling contractors, and vehicle body repairers in automotive service and repair workplaces who are required to recover automotive air conditioning refrigerants.

Licensing/Regulatory Information

Automotive refrigerant handling licences, or trainee licences, apply to those handling refrigerants while undertaking training and are administered by the Australian Refrigeration Council, which should be contacted for further information.

Pathways Information

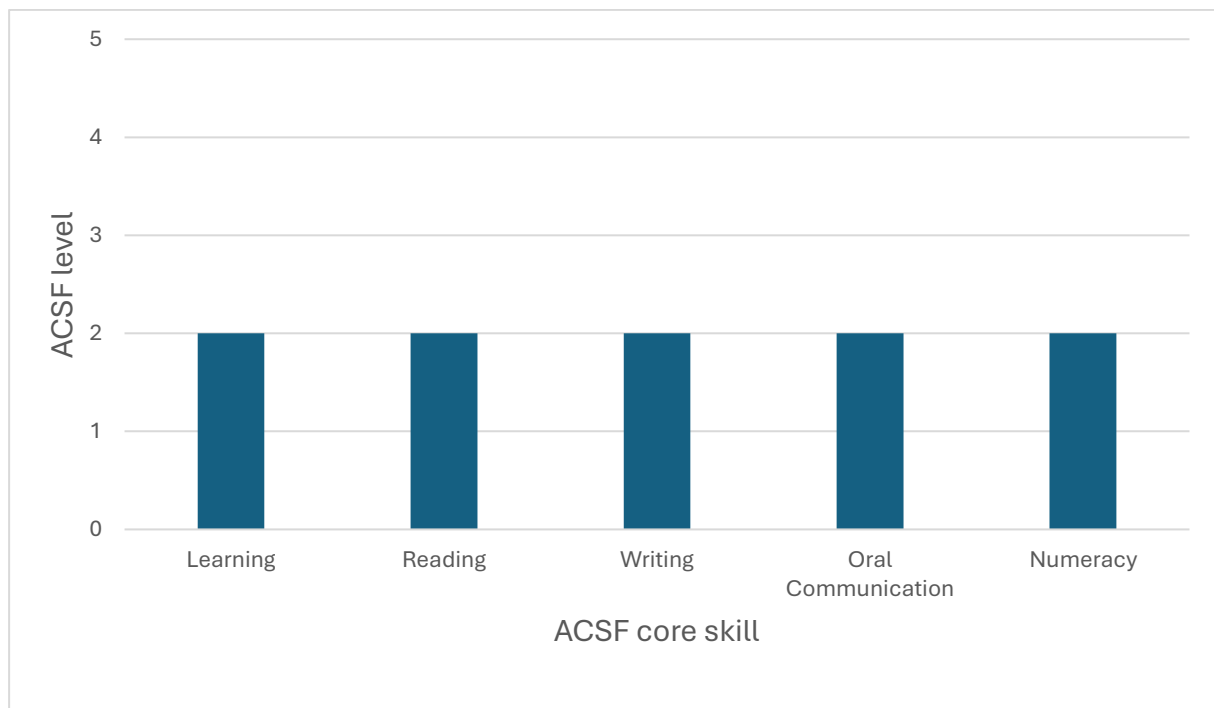

The skill set provides credit towards qualifications that allow for selection of this unit.
